

In re of Appln. No. 09/830,954
Amendment under 37 C.F.R. §1.312
March 7, 2005

REMARKS

The present amendment is being made to correct typographical errors and clerical errors of a minor nature that were not submitted with the substitute specification that accompanied applicants' amendment filed November 12, 2004.

The correction being made to paragraph [0247] returns the identified residues to what was in the specification as originally filed at page 61, line 19, and identifies the residues as residues 2-5 of SEQ ID NO:23.

When related application 09/473,653 issued as USP 6,703,015, several errors in the "Other References" "Other Publications" section on the patent face were noted. These same errors occurred on the substitute Form-1449 filed in this case on July 16, 2001. In an effort to correct these errors prior to the publication of the patent issuing from this application, attached as Appendix A is a marked up copy of the non-patent publications listed on the originally-filed substitute Form-1449 (put in alphabetical order, but maintaining the original cite numbers). In addition to minor clerical errors, it can be seen that one author was misidentified and one cite appeared twice. Attached hereto as Appendix B is a clean copy of this new list. It is requested that the listing of non-patent publications in the clean copy appendix be used instead of that which accompanied the Information Disclosure Statement of June 16, 2001.

In re of Appln. No. 09/830,954
Amendment under 37 C.F.R. §1.312
March 7, 2005

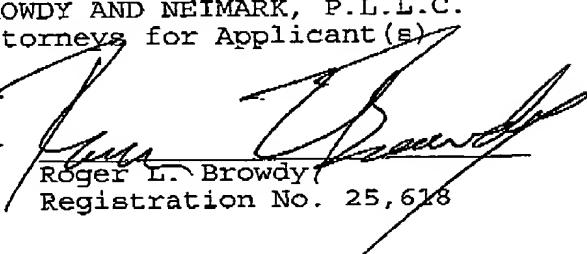

It is submitted that the amendments presented hereinabove are to correct typographical/clerical errors and a correction needed for proper disclosure or protection of the invention, all of which require no substantial amount of additional work on the part of the examiner. Entry of this amendment is earnestly solicited.

The issue fee has not yet been paid.

Respectfully submitted,
